

Technical rider – outdoor show

libero!

By Lorenzo Cinotti & Jeanette Flexonette

CONTACT: Lorenzo Cinotti, +49 (0) 1625231421, cinottiflexonette@gmail.com

GENRE: physical comedy, clown.

DURATION: 30-40 minutes.

PUBLIC: all audiences.

PERFORMANCES PER DAY: maximum 3.

LANGUAGE: mute.

PERFORMANCE SPACE:

Ideal dimensions: 6 m x 5 m, with a ceiling height of minimum 2,50 m.

The show is suited for outdoor or indoor performance.

Ground: Dry, flat and level. Grass is ok. No gravel.

Ideally, the public will not face the sun on daytime. The experience will be much better if the ambient noise is reduced (ambient music, fan, etc.).

SCHEDULE: we arrive two hours prior to performance.

Set up: 30 minutes.

Take down: 20 minutes.

If we play in the same day on different stages, please contact us.

DRESSING ROOM: we wish a space closed to public access, accessible two hours before the show.

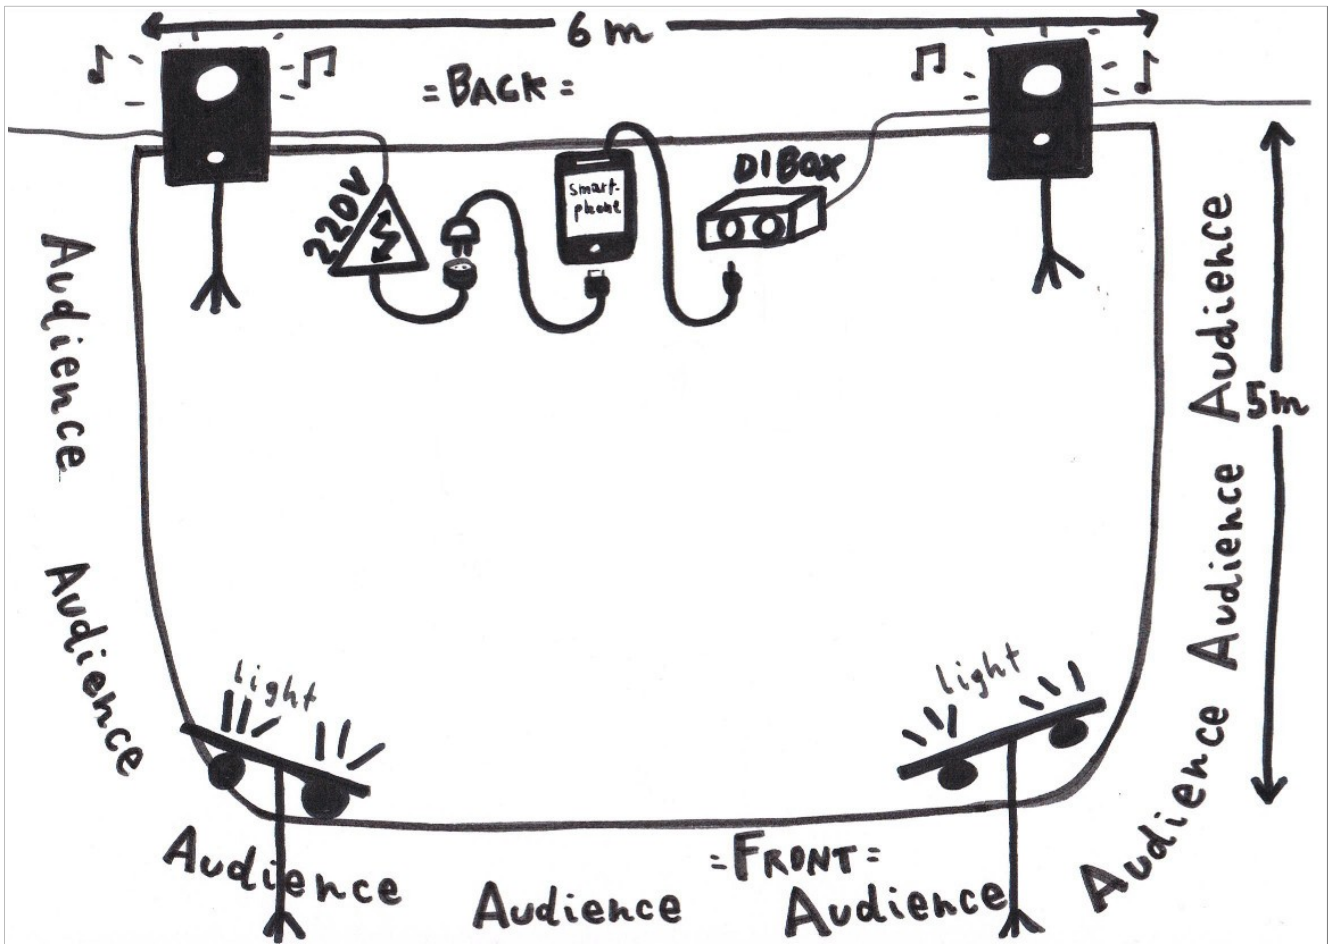

AUDIO: we provide the smartphone for the music. The event provides a DI Box on the stage to connect the smartphone (mini jack).

POWER CONNECTION: the event provides a power connection (220-240 V) with one outlet for a smartphone.

LIGHT: by outdoor venues the event provides sufficient light at night. We don't have a light set.

NOTE: in case the event doesn't provide the sound system, we can use our own, but it is not that strong and not enough for large crowded squares. If power connection is not available, please contact us.

If one of the requirements of this technical rider could not be completed, please contact us. We will be pleased to see if we can adapt the show to your needs.
